

Gardens

We're All About Your Life Outside™

We love gardens too! With our own greenhouse and a staff of dedicated gardeners who are passionate about green and flowering things, we can install, maintain, reclaim, and expand your gardens, create beautiful containers, plan for special events and bring the green indoors. No matter the size of your garden, we are here to help you get started and to keep your garden healthy and blooming.

Garden Inspiration

Container Design

Containers and annuals add instant color and their inherent versatility allow you to do something different every year. Annuals come in every size, shape, and color, containers in many styles and materials. Add color and personality to your entryway, deck or existing gardens with our designs and on-going maintenance.

Garden Installation

Do you have a vision of your dream garden but need help making it a reality? We can enrich an existing garden with new perennials and annuals or install new gardens with the plant and color combinations you desire. Adding a garden accessory like a bird bath or stone stepping path can be just the right accent your garden needs. We also offer garden analysis and plant identification to help educate clients on their current landscape.

Garden Maintenance

Despite best intentions, it's the rare homeowner who can keep up with garden maintenance. We can reclaim a neglected garden bed or improve an existing one, we weed, edge, compost and mulch. Let us help with spring cleanup, summer upkeep and winter preparation. It doesn't matter how big or small the garden, we tailor our work to meet your gardening needs.

Interiorscapes

With our long New England winters, it just makes sense to extend our 'green season' by bringing the outdoors in. Plants in any business or home are a simple way to enrich the quality and appeal of any environment, increase happiness and efficiency, reduce stress, and clean the air. We can design your interiorscape and offer a professional staff for all of your maintenance needs.

Special Events and Holiday Decorating

Imagine winding wisteria vines creating an archway for a wedding, vibrant flower beds for a garden party and colorful containers both indoors and outdoors, any time of year, for immediate impact. It's all customized according to your requests!
