- Common chickweed (*Stellaria media*)
- Creeping buttercup (*Ranunculus repens*)
- Dandelion (*Taraxicum officinale*)
- Dovefoot geranium (*Geranium molle*)
- English daisy (*Bellis perennis*)
- False dandelion (*Hypochoeris radicata*)
- Healall (*Prunella vulgaris*)
- Lawn burweed (*Soliva ptero-sperma*)
- Moss, liverworts, algae and lichens
- Narrow-leaved plantain (*Plantago lanceolata*)
- Oxalis (*Oxalis* spp.)
- Persian Speedwell (*Veronica persica*)
- Shepherd's-purse (*Capsella bursa-pastoris*)
- Silverweed cinquefoil (*Potentilla anserina*)
- Slender speedwell (*Veronica filiformis*)
- White clover (*Trifolium repens*)
- Wild chamomile (*Matricaria chamomilla*)
- Wild geranium (*Geranium robertianum*)

Application Directions – Broadcast Treatment

Rate of Spray Solution	Rate of Concentrate	Weeds Controlled	Area Treated
2.8 fl. oz./yd ² Or 2.5 ga/1000ft ²	12.6 fl. oz/ 1000ft ²	Rate for easy-to-control weeds: black medic, slender speedwell, wild geranium and moss. This rate can also be used for weed seedlings of: false dandelion, English daisy, dandelion or white clover.	25400 ft ² /2.5 G jug
5.7 fl. oz./yd ² Or 4.9 ga/1000ft ²	25.2 fl. oz/ 1000ft ²	Standard rate for control of most weed species: dandelion, English daisy, false dandelion, white clover, bull thistle, Canada thistle, common chickweed, narrow-leaved plantain, dove's foot geranium, lawn burweed, and algae, and for the SUPPRESSION of broad-leaved plantain.	12700 ft ² /2.5 G jug
11.3/yd ² 9.8 ga/1000ft ²	50 fl. oz./ 1000ft ²	Rate for tough perennial weeds such as: creeping buttercup and broad-leaved plantain.	6340 ft ² /2.5 G jug

Shake well before using. Mix one part Fiesta Turf Weed Killer with 24 parts water (5 oz. in 1 gallon of water). Apply the mixed solution at a rate of 2.5 - 10 gallons/1000 ft² (2.8-11.5 fluid oz./yard²), using the chart to determine how much diluted spray to use per area. Any standard hand-held or backpack sprayer can be used. Thoroughly spray weeds. Use a coarse nozzle setting to reduce drift. Uniform coverage is important.

Repeat treatment in 3 to 4 weeks for best results.

Application Directions – Spot Treatment

Shake well before using. Mix one part Fiesta Turf Weed Killer with 24 parts water (5 oz. in 1 gallon of water). Thoroughly spray weeds to point of runoff using any standard hand-held or backpack sprayer. Use a coarse nozzle setting to reduce drift.

Repeat treatment in 3 to 4 weeks for best results.

What will I see?

Works quickly; dying weeds will be seen within hours of application. Treated weeds, moss or algae will turn brown or black. Occasionally a darkening of the grass leaf blades can occur after treatment; however the grass will recover within a few days to weeks.

Use Precautions:

It is recommended to avoid applying to drought stressed grass. It is recommended to not apply when the daytime temperature will exceed 85°F as turf injury could result. Do not apply to bentgrass. Do not apply to newly seeded areas prior to grass seed germination. Avoid spraying desirable plants. Any desirable plants or structures accidentally contacted should be rinsed with water. To avoid staining of shoes and clothing, wait until treated area dries before re-entry. Avoid applying if rainfall is expected within 3 hours of application as treatment may be less effective. Do not irrigate within 3 hours of application as treatment may be less effective. Do not apply to the same area more than 4 times a year as thinning of the turf may result.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

PESTICIDE STORAGE: Store in a secure place, away from open fire or flame. Keep container closed and reseal after use. If spilled, use absorbent materials and dispose of in an approved manner.

DISPOSAL

PESTICIDE DISPOSAL: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER HANDLING: Nonrefillable container. Do not reuse or refill this container. Triple rinse container (or equivalent) promptly after emptying. Triple rinse as follows:

Empty the remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container ¼ full with water and recap. Shake for 10 seconds. Pour rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times. Offer for recycling, if available.

FIESTA TURF WEED KILLER:

- Kills weeds not lawns
- Works in cool weather
- Rainfast in 3 hours
- Works fast
- See results the same day
- No unpleasant odor
- Eliminates unwanted moss, algae and lichens quickly
- Lawn areas can be re-sown within one day of treatment with FIESTA
- Even works in cool weather
- Kills weeds, down to the root

- Best results are obtained when applied in the Spring or Fall when environmental conditions are cool and there is ample moisture
- The best times to treat weeds are in the Spring when they are small and growing and in the Fall to eliminate many of next year's weeds
- People and pets can enter treated area when spray dries
