

# Turf Technician Job Description

## Overview

Chippers Turf Technicians have the primary responsibility of providing turf care needs such as aeration of lawns and application of fertilizers on client properties. The Turf Technician should have an above average understanding of plant science, and an interest in working independently outdoors.

The Turf Technician ensures that all company policies regarding safety, maintenance, cleaning and storage of equipment, and handling of all products are followed correctly. The Turf Technician will work independently and may be called upon to provide a diverse range of services for our clients.

The Turf Technician reports to the Operations Manager of the appropriate office and to the Turf Division manager according to need.
