

# Notes From The Arborist

## Planting Trees Is Cool... and Hot!

*Save Energy Costs & Increase the  
Value of Your Home*

### Did You Know?

- An evergreen windbreak planted to the north of your home can lower your heating bill by up to 20%.\*
- Deciduous shade trees properly located in your landscape can reduce your cooling costs by up to 35%.\*
- A landscape with mature trees increases your property value by up to 15%.\*
- We plant large trees to help you get immediate results.
- We transplant large trees too – placing them exactly where they need to be!
